## Life, the (Alpha) Quadrant, and Everything: The Borderlines Universe

by [B\\_Radley](#)

### Summary

Just a place for me to post some of my ideas, character guides, headcanons, and general musings on my writings. Will update when something strikes my fancy.

This is only my version of the Star Trek Universe and my thoughts. As a reader, I love exploring other writers' works and ideas and love the creativity that goes into y'all's stories. I welcome y'all's thoughts on anything I say. (I'll only cry a little bit)

Don't be alarmed. The first two sections are the main characters.

**The Present (10/2296)** - The command element for the 17th Border Patrol Group (Special Operations Capable), when our story begins

- Captain (L) Chandrelle et Prehaska ne Songet (Chandra) (b. 01/01/2266), daughter of Giat et Songet er Forlana (father), who was bonded to Starra na Songet'ii (Head of Clan) (mother), and Fasan et Songet ne Gorlani. There was another member of the bond, a Gemsera daughter, who left the bonding under mysterious circumstances, around the time that Chandra was given up for adoption, with Hunter being her adoptive mother. NOTE: The Gemsera were intense rivals of the Gorlani, a more powerful family. Chandra knows that she is adopted and who her birth parents are; there is resentment as she assumes she was given up for a more advantageous bonding, though she doesn't know the full story. Uneasy relationship with her birth family.
- Commander Kaylin Stone-Hunter (daughter of Hunter, who is Beta Canon, *The Entropy Effect* by Vonda N. McIntyre) (b. 05/01/2269) (Deputy Commander, 17th Border Patrol Group as of 10/2296) Her mother was part of a partnership family.
- Lieutenant Siobhan Lincolnton - CO of command ship (b. 10/17/2273)
- Midshipman (Ensign)/Brevet Lieutenant j.g. Decker Sinclair (b. 01/11/2276) - granddaughter of Commodore Matt Decker, niece of Captain Willard Decker, daughter of Rear Admiral (E) Mary Decker and Surgeon Commander Kimberly Sinclair (currently unrevealed father)
- T'Varilyn - (born 2240, died 2295) Vulcan member of the Security Ministry, the Special Studies Group of the V'Shar. Professor at University College Dublin on Earth, Federation Free Agent. Granddaughter of T'Pol. Bonded to Chandra and T'Varilyn for five years, before her death at hands of Klingons on Vostus, while trying to rescue Chandra's squadron of the 17th. Transferred her katra to both Chandra and Jamie; she shares her insights with them both, whether they want it or not.

**The Past and Present** - (The original Prelanka-Soné from the Academy) - were all senior cadets on the Mutara mission; they all became part of a Deltan Prelanka-Soné, a 'bond of all', the heart, the mind, and the body)—not exactly recognized by Starfleet.

- Chandra (Cadet Lieutenant Commander in 2285)
- Jamie 'Croft' Blackthorne (Cadet Lieutenant Commander) (b. 10/2266), Starfleet Intelligence—supposedly a Major of Marines (deep cover in Romulan Empire, codenamed Covenant. Romulan cover name, C'Daya) Mother is Captain (later Commodore ret'd) Bethany Blackthorne (b. 02/09/2227-2277), captain of USS *Yorktown* (NCC-1712) Father currently unrevealed. There are several possible candidates as Bethany didn't like to be tied down. (And of course, she dated Jim Kirk, when she wasn't trying to show him what being a starship commander was actually all about.)
- Eleanora (Nell) 'the Last Word' Cavendish, currently Lieutenant Commander, Starfleet Intelligence, 27th Duchess of Devonshire (Cadet Lieutenant) (b. 09/16/2296)
- Morgan Michaela 'Trust Fund' Walsh-McMurtry (Cadet Lieutenant) (b. 03/17/2266) estranged daughter of Vice Admiral Michael Walsh (Beta Canon character - *My Enemy, My Ally*) Current Lieutenant Commander, BPG-17, late of Starfleet Flight Test Center. Goes by Morgan McMurtry. Don't call her Mike, but also known as M-cubed, since a couple of them gave her nicknames (was in charge of the nicknames). Her mother's name isn't widely known (she has a codename)
- Meghan Emma 'Prickly' Rosewarne (b. 07/04/2266) (Cadet Captain) severely injured at Mutara. On medical leave for injuries and to give birth to son, had completed academic degree requirements, but not technical requirements, refused to re-enter Academy, intending

to complete term as crewmember, received field commission after a year. Gave birth to son, Zhani Arthur Rosewarne-Meeliy, who is currently ten years old.

- Roged Meeliy (b. 2266, d. 2285) (not a cadet officer) Rigelian h'vast - one of five distinct genders among the Jelna of Rigel V. Died at Mutara, father of Zhani.

**Chandra's Potential Prelanka-na ('Bond of mine', legal marriage)**- Chandra is engaged to be bonded to a couple; she is already the equivalent of a 'godmother' to their children, both adopted and birth.

- Dayla na Prehaska'ii ét Torlana (Head of the subclan)
